

Welcome!

Webinar #17: Total Plant Cost in Thermoflex 21 Nov 2017

Agenda:

- * Introduction
- PEACE Components in Thermoflex
- Cost estimation in TFX, traditional approach
- Plant Assembly and Total Plant Cost
- Economic & Financial Assumptions
- Non Flowsheet components
- Results and Techno Economic Optimization
- * Q & A Session

Thermoflow Training and Support

- Standard Training
- On site training course
- Advanced Workshop
- Webinars when new version is released
- Help, Tutorials, PPT, Videos
- Technical Support

→ Feature Awareness Webinars

Feature Awareness Webinars

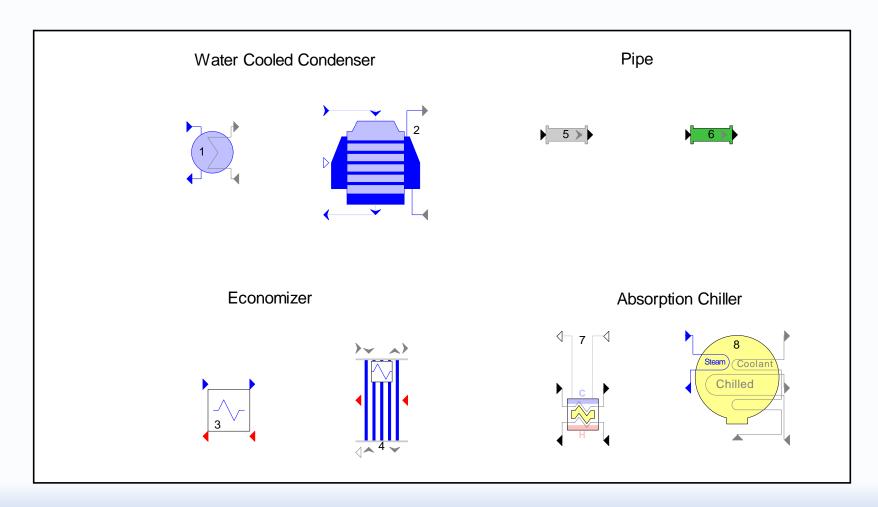

- 1- Assemblies in TFX
 - 2- Scripts in Thermoflow programs, GTP-GTM-TFX
 - 3- Multi Point Design in GTP-GTM
 - 4- Reciprocating Engines in TFX
 - 5- TIME in GTM
 - 6- Matching ST Perfromance in STP
 - 7- Modeling Solar Systems in TFX
 - 8- Combining THERMOFLEX & Application-Specific Programs
 - 9- Methods & Methodology in GT PRO & STEAM PRO
- 10- Supplementary Firing & Control Loops in GT PRO & GT MASTER
- 11- The Wind Turbine Feature in Thermoflex
- 12- Modelling GT's in Thermoflow programas-1
- 13- Thermoflex for on line and off line performance monitoring
- 14- Tflow 27, what's new
- 15- Modelling GT's in Thermoflow programas-2
- 16- Multi Point Design in GTP-GTM

17- Total Plant Cost in Thermoflex

3

ST Assembly

| STAssembly [1] | | |
|--|-----------|-------|
| Estimated Steam Turbine Data | | |
| | | |
| 3. Reference Material, Equipment, and Installation Costs | | |
| Equipment | | |
| Steam Turbine Package Cost | 5.568.000 | EUR |
| Including: | | |
| - Turbine | | |
| - Generator | | |
| - Exhaust System | | |
| Electrical/Control/Instrumentation Package | | |
| Lube Oil Package w/ main, auxiliary & emergency pump | | |
| - Transportation to Site | | |
| Mechanical | | |
| Mechanical material cost | 37.160 | EUR |
| Mechanical labor | 5.640 | hours |
| Mechanical labor cost | 207.950 | EUR |
| Electrical | | |
| Electrical material cost | 20.390 | EUR |
| Electrical labor | 2.420 | hours |
| Electrical labor cost | 91.300 | EUR |
| Transportation & Rigging | | |
| On-site Transportation & Rigging | 70.650 | EUR |
| Civil (ST and Laydown Pads) | | |
| Foundation concrete volume | | m^3 |
| Foundation material & equipment cost | 146.350 | |
| Excavation/backfill volume | | m^3 |
| Excavation/backfill material and equipment cost | 7.300 | |
| Civil labor | 4.420 | |
| Civil labor cost | 143.200 | EUR |
| | | |
| 5. Cost Summary | | |
| Total Reference Installed Cost | 6.292.000 | EUR |
| Total Installed Cost Adjustment Factor | 1 | |
| Total Adjusted Reference Installed Cost | 6.292.000 | EUR |
| Total Estimated Installed Cost | 6.695.000 | EUR |
| | | |

HRSG Assembly

| HRSGAssembly [1] | | |
|---|-----------|-------|
| Estimated HRSG Data | | |
| | | |
| Equipment | | |
| Overall HRSG Unit Cost - including: | 3.043.000 | EUR |
| Main Stack | 471.250 | EUR |
| | | |
| Mechanical | | |
| Mechanical Labor | 10.710 | |
| Mechanical Labor Cost | 395.050 | EUR |
| | | |
| Transportation & Rigging | | |
| On-site Transportation & Rigging | 198.450 | EUR |
| | | |
| Civil | | |
| Foundation Concrete Volume | 217 | m^3 |
| Civil Labor | 4.230 | hours |
| Civil Labor Cost | 137.000 | EUR |
| Total Civil Cost | 292.200 | EUR |
| | | |
| Total Cost | | |
| Total Reference Installed Cost | 3.928.000 | EUR |
| Total Installed Cost Adjustment Factor | 1 | |
| Total Adjusted Reference Installed Cost | 3.928.000 | EUR |
| Total Estimated Installed Cost | 4.231.000 | EUR |

website: www.Thermoflow.ir Cost Estimation in Thermoflex

Traditional Approach \rightarrow Sum of Cost of Components

| Cost Summary | Estimated Cost | |
|--|----------------|-----|
| 1. Sum of Costs for Equipment and PEACE Components | 139.140.900 | EUR |
| | | |
| 2. Sum of User-defined Costs | 0 | EUR |
| | | |
| 3. Sum of PEACE Components, Linked Files, and User-defined Costs (Contractor's Internal Cost) | 139.140.900 | EUR |
| Contractor's Soft & Miscellaneous Costs | 34.798.670 | EUR |
| | | |
| 4. Contractor's Price | 173.939.600 | EUR |
| Owner's Soft & Miscellaneous Costs | 12.522.680 | EUR |
| | | |
| 5. Total - Owner's Cost (0,899999976158142 EUR per USD) - See Cautionary Note Below | 186.462.200 | EUR |
| | | |
| 6. Plant Net Electric Output | 444,7 | M₩e |
| | | |
| Cautionary Note: | | |
| In Simplified PEACE mode, THERMOFLEX does not provide complete plant cost estimates | | |
| as is done in the Comprehensive PEACE mode or in GT PRO and STEAM PRO. | | |
| In Simplified PEACE mode, THERMOFLEX only includes capital cost estimates for PEACE components and for linked GT PRO, GT MASTER, and | | |
| STEAM MASTER files. Complete plant cost estimates often contain features not included in the THERMOFLEX | | |
| model. It is the user's responsibility to carefully review the cost estimate and its scope to ensure suitability | | |
| to the project at hand. | | |
| | | |
| Costs for features not included in the model should be included via the user-defined cost inputs available from: | | |
| 'Edit Inputs' -> 'Economics & Regional Costs' menu -> 'User-Defined Costs' tab. | | |
| * Cost estimates as of August 2017. | | |

website: www.Thermoflow.ir Telegram: @Thermoflow_users Plant Assembly in Thermoflex

- 1. PEACE Method= Simplified→ Sum of Costs, traditional method= Comprehensive→ Total Plant Cost
- 2. Select "Site Plant Groups": GT+HRSG, ST+Condenser, GT+HRSG+ST (Single Shaft), ...
- 3. Add main components to Site Plant Groups
- 4. Add other components / Include all
- 5. Include Generators
- 6. Include Non-Flowsheets components (pipes, pumps, tanks, ...) and other PEACE inputs
- 7. Regional Costs and Economic Assumptions

ROI Calculation

Q & A Session

- Please forward your questions on the WebEx Chat
- Further questions by email to: info@thermoflow.com

- PP Presentation will be available on the Website / Tutorials
- Video will be available on the Service Center

Thank you!
